

Referee and Volunteer Program (RVP)

The club's Referee and Volunteer Program (RVP) was created as a vehicle to support the club's financial aid effort, give players a greater understanding of the game, instill a broader sense of community spirit, and provide much-needed officiating support for ourselves and our neighboring clubs. Here are the relevant program details:

U8 to U13 Ages:

- Refereeing is not available for this age group. Families are instead required to submit a \$250 deposit at registration and then volunteer in some capacity for the team (preferred) or for the club. Upon verification of volunteering, \$200 of the deposit is refunded. Team managers report their cadre of volunteers at the end of the season for refund crediting.

U14 to U19 Ages:

- The Referee and Volunteer Program is mandatory for all players. Players are required to make a \$350 deposit at registration preceding fulfillment of their five (5) games refereed or five (5) hours volunteered obligation. Players on financial aid make a proportional deposit according to each's aid award percentage and are likewise entitled to a proportional refund upon refereeing or volunteering.
- Players are required to hold a current CNRA level 8 license. If they do not have a current license, they may attend a certification course offered by Marin FC at no charge.
- Players must report all five games or five volunteer hours refereed on the Marin FC website.
- Players who complete and report their program obligation will receive a \$200 refund from their original deposit.

I/we acknowledgement of the responsibilities and commitments of the Referee and Volunteer Program (RVP).
